</tbody>
</table>

(X) Not applicable.

1. Other Asian alone, or two or more Asian categories.
2. Other Pacific Islander alone, or two or more Native Hawaiian and Other Pacific Islander categories.
3. In combination with one or more of the other races listed. The identified race categories may add to more than the total population and their percentages may add to more than 100 percent because individuals may report more than one race.
4. The U.S. Census Bureau edited same-sex spouse responses during processing to “unmarried partner.” Family households consist of a householder and one or more people related by birth, marriage, or adoption. They do not include same-sex married couples even if legally recognized. Same-sex households are only included in the family households category if there is at least one additional person related to the householder by birth or adoption.
