Difference in the Poor Population by Household Type for La Crosse County

Non-Family: 918
Single Female: 602
Single Male: 76
Married: 220

Note: The reported projections are merely suggestive and should not be interpreted as population estimates. These graphs represent projected differences in the size of the impoverished population count, not the projected proportion of the population in poverty. See the full report by Curtis and O'Connell (2010) for more details (http://www.apl.wisc.edu/index.html).
